

Westport Community Webinar 1: Overview of Westport

20 February 2024

Audience questions not addressed in the session

1. *Who is responsible for the proposed decommissioning and redevelopment activities at the Fremantle Inner Harbour?*

Responsibilities for decommissioning the port will be finalised after the WA Government has made decisions on 3 interrelated programs: Westport, non-container trades and the [Future of Fremantle](#).

2. *How can I get involved in the session on the horse beach?*

Westport will soon be seeking feedback from people who use the Naval Base horse beach at the end of Riseley Road and Barter Road in Kwinana. To get involved, [register for Naval Base horse beach consultation](#) or contact us via enquiries@westport.wa.gov.au

3. *What considerations been given to port security risks?*

The State and Federal governments will continue to work collaboratively on national security issues.

Westport is working with both Defence West (part of the Department of Jobs, Tourism, Science, and Innovation) and the Department of Defence. Westport is sharing designs with Defence to ensure no constraints are placed upon current and potential future Defence operations.

4. *Will noise mitigation structures be built on Anketell Road?*

Following a government funding decision, the project would move into further design and development, which would include noise modelling to assess the impact of the freight corridor design. This information will help identify what appropriate measures may be required, such as noise walls, guided by State Planning Policy 5.4 Road and Rail Noise.
